

Tactical Encounters  
Presents  
**SWAT Operator Course**

This course is designed for the officer assigned to a Special Weapons & Tactics (SWAT) Team, or an officer looking to obtain a position on a tactical team. This course will also benefit Narcotics officers assigned to a raid team, or patrol officers wishing to receive advanced techniques that may be called upon during their shift in today's violent times. It is our belief that ALL police officers should be tactically trained.

The course curriculum covers firearms (Pistol/Rifle), advanced building entry tactics, low-light tactics, hostage rescue techniques, mission planning and more. Officers will then be placed in a variety of scenarios in both day and night operations with role-players designed to test you and your abilities.

BE ADVISED... This Course will vary hours to accommodate various situational environments.

**Topics covered:**

- Advanced Shooting Techniques of Tactical Weapons.
- Low Light Engagements
- Advanced Building Entry Tactics.
- Perimeters and Stalking Exercises
- Mission Planning.
- Hostage Rescue Techniques

**April 2<sup>nd</sup>-6th**
