

LAW ENFORCEMENT DEFENSIVE TACTICS & STRATEGIES

The techniques taught at LEDTS will provide students with the training, skills, and abilities officers must have in the current climate to overcome new challenges and to remain safe in the line of duty.

With over 100 local, state, and federal law enforcement officers currently training at the academy, we know firsthand how effective the techniques and strategies have been in order for an officer to leave a dangerous situation unharmed. We have heard countless times how a technique or strategy that we have taught has resulted in an officer leaving a situation without further escalation of force.

The techniques taught in this Course will emphasize officer safety, reasonable and effective control methods and decrease the likelihood for excessive force.
